

My Car Club National Motoring Heritage Day at East Kurrajong, 15th May 2022

13 Cars and 19 people from MCC attended the National Motoring Heritage Day at Stanley Park in East Kurrajong on Sunday 15th May. We met up at the park.

It was drizzling in Sydney when we left home and the running of the Sydney Half Marathon meant some detours were required to get out of the city. After yet another rainy week the grounds of Stanley Park were a bit wet. The MCC was assigned a spot a little way down the hill and the further down you went the wetter it got! There was a bit of wheel spin from some cars getting into position. Most people had picnic lunches and chairs. was too wet for a blanket!!!!

Some of the club cars in attendance were John with his Mercedes CLK500 Cabriolet, standing out in bright yellow, Cam with her silver Mazda MX-5, Matt with a very large white Cadillac, Colin with his Maserati and Mike and Jenny with their Mercedes C250

Lots of other car clubs were in attendance with cars ranging from the familiar to the very exotic. There were some Minis and Mokes, some FJ FE FC FB EK and EJ Holdens from the 50's and early 60s. There was a Honda S600 sports coupe that attracted a lot of attention: such a tiny car and in very good shape. There was also a Ferrari Testarossa, a Lamborghini, a pair of Peugeot 505 wagons and a nice SAAB 900 Turbo.

Beyond the cars the show also included some trucks and tractors, stationary steam engines and a collection of old motor mowers. People really do have all sorts of interests that get them out and about and socialising!

The weather was a mainly cloudy with some patches of sun and very humid, but at least the rain held off.

We got a bit more drizzle as we headed home.

Another very enjoyable day out with the MCC crew.

Colin Bard.
