

FRANKIE'S FROLIC.

Mid -week drive to Frankie's via the Hawkesbury.

Wednesday, 20th July, 2022.

Meeting place: the usual starting point for this area, McDonald's, Old Northern Road, Dural.

Meet time: 10.00 for 10.30 departure.

Rain Tuesday and Tuesday night but cleared to an occasional drizzle on Wednesday.....definitely not an impediment to our forthcoming drive!
All members were present and accounted for at the due time and departure was at the designated time of 10.30.

We took the Old Northern Road and drove to Wiseman's Ferry, then Leets Valley, passing through Maroota until reaching our destination, Flower Power Garden Centre, Glenhaven....we virtually did a circle.

Even though the roads were potholed (not too badly) it was still an enjoyable and eye-opening drive....we saw first-hand the damage caused by the floods which was extensive....the closer we got to the low-lying areas, the more obvious the devastation became....the roads were lined with non-working fridges, driers etc ...this had to be seen to be believed!

We didn't use the ferry today but still drove approximately 103 km, taking around 2 hours.

We had some cancellations due to the expected rain which did not eventuate but a hearty, happy crew was still on hand....much noggin and natter as usual.

Rosa's sister Flo was a visitor and Jim, a new member, was also in attendance in his lovely white MR2.....this car is modified, hence the E on the rego....it is running a V8 rather than the stock dohc 4 cylinder!

Good drive, good food, good company.

A very enjoyable day indeed!

Well done Mark.
