

TECH DAY--TIGERR DETAILING.

GRAND OPENING.

Saturday, 25th June, 2022.

Unit 1/26 Kent Road, Mascot.

BBQ lunch-refreshments provided.

Good weather greeted an excellent turnout of members for the grand opening of the Tigerr Detailing high tech facility at Kent St., Alexandria. Was it purely the promise of gaining "insiders' knowledge" of the lesser know aspects of detailing to assist our "crew" in maintaining and improving their classic/s? Likely, but the bonus of member camaraderie, easy onsite parking and a yummy BBQ added to the popularity of the event.

Jason the owner of Tigerr Detailing generously shared the Grand Opening and provided a comprehensive tour of the facility and an informative commentary on the finer points of several cars in their varied courses of preparation.

As usual the "Hertz Bros" featured, on this occasion choosing to display a very pretty Conique 1930 Model A Ford Special and an impeccably presented midnight blue Mercedes 450 SLC. This amongst a feast of other beautiful member cars, including a mouth-watering early model Corvette convertible, an immaculate Mercedes 280SE 3.5 litre coupe and an early model Mazda MX5.

All in all a great member event - enjoyed by all.
