

**My Car Club NSW
Week-End Drive
CORRUGATED IRON CAFÉ
Saturday June 29 2024**

Gary Winterbottom

Saturday dawned cold and overcast (typical Sydney winter's day), as 23 members headed to The Shoppe Café at Cowan to meet, greet and enjoy the coffee before heading off.

There was Mercedes, of several types, a Mini Clubman, an E30 BMW, an S series Valiant, an MX5 and various other Makes & Models.

We headed off about 10.45 after the sun came out for a beautiful winter day on the old highway towards the bridge over the Hawkesbury River.

There was a short delay due to bridge works.

Then we continued towards Peats Ridge and lunch at the Corrugated Iron Café, to sample their offerings.

After a sufficient lunch and conversation, we got back into our cars and headed towards Mangrove Creek Dam. Unfortunately, some drivers and navigators missed the turnoff and did not get to the dam.

For those who did get to the location, we found very good and clean facilities with an informative display. We were also greeted by a 2-metre-long goanna, basking in the winter sunshine.

We then headed off home either via the M1 or the old highway.

Thanks to Mark for another great drive
