

Mid-week drive to Wentworth Falls – 24-9-2025

A glorious Spring day with a promise of Summer-like weather encouraged a good number of members to turn out for Mark's run to Wentworth Falls in the Blue Mountains. The appointed rendezvous at the all-new Ampol Foodary carpark on the M4 at Eastern Creek attracted a dozen or so cars with around 15 people ready to make the trek west. A lady in a little Toyota Corolla approached me seeking assistance as the plastic inner guard over her left front wheel had come adrift and was rubbing on the tyre. She had rung the NRMA who said that it would have to be a towing job, but President Dennis rummaged around in the boot for his tools and had the lady mobile again in about 10 minutes much to her delight.

The order to "start your engines" at 11am had us all out on the freeway, with a trouble-free run to our destination, arriving at the Conservation Hut Café overlooking the magnificent Jamison Valley just on noon. There we met up with a group of members who had decided to make a direct journey to the venue, so we numbered 30 altogether, just about filling the entire café.

The tucker on offer was enough to satisfy the most fussy of palates, and a very pleasant and obliging staff had us all singing their praises. After the feasting was done and the spectacular views taken in, people began to drift off homewards around 2.30pm. Another superb effort by our esteemed events director, Mark.
