

Nice 77 kilometer drive from home to Nick & Rena's place for the club's Australia Day Lunch 2026.

Upon arrival at around 11am the early birds already had the best driveway parking spots but still plenty of street parking.

As the club's facebook page will show nice photos of members' cars on show.

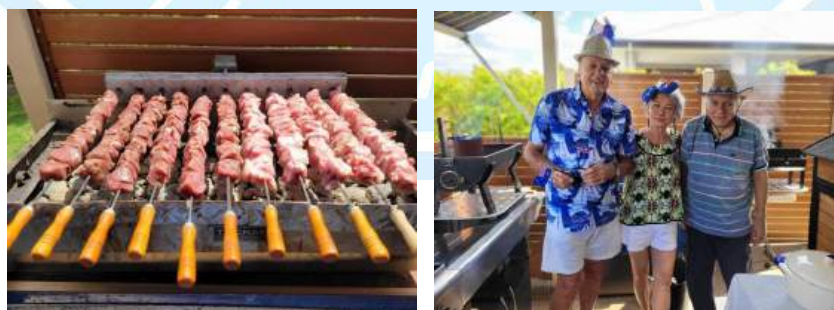

Other than the meats and snags Rena, as always, had great food cooking in the oven plus a wide selection of salads!

As they say team work makes the dream work and many thanks to firstly our hosts Nick and Rena for offering their lovely home for the club's Australia Day Lunch.

When it comes to BBQ Nick has it all sorted with the right setup equipment.

Then thanks to everyone who helped out with set-up, cooking, washing and cleaning and packing up!

A good attendance of 44 members plus guests, including our musicians....great to have them back.

There was certainly lots of catching up, conversations and camaraderie.

Then after lunch an array of naughty sweet cakes and desserts to complement lunch.... and as we know Rena's cakes & desserts are number one..... and let's not forget the few treats that other members brought along.

An enjoyable day and also thanks to our events director Mark.

Cheers: **Luke Vee.**
