

On Wednesday the 13th of May 2026, The My Car Club NSW held another enjoyable social outing, "Picnic in the Park," at the beautiful Moore Reserve, Hurstville Grove.

Moore Reserve, a picturesque 14.2-hectare parkland, is surrounded by the Sydney suburbs of Oatley, Mortdale and Hurstville Grove, making it an ideal location for members to gather and enjoy a relaxing day together.

The morning weather forecast predicted only a 40 percent chance of rain but unfortunately the rain gods had other ideas..... upon arriving at around 10:30am members were greeted with a steady downpour that certainly tested everyone's enthusiasm.

Despite the bad weather a good selection of classic cars made the journey.

Despite the wet start, 16 dedicated club members progressively arrived throughout the morning, each bringing along their own food and beverages. Thankfully the reserve provided undercover areas where everyone could shelter from the rain while still enjoying each other's company.

In true club spirit, one generous attendee arrived with hot chips for everybody, which was appreciated by all.

As the day went on the weather slowly began to improve....the rain eased, the clouds parted, and eventually the sunshine made a welcome appearance, allowing members to enjoy the beautiful surroundings of the reserve.

Although the weather may not have been perfect at the beginning, the camaraderie, laughter and good company once again proved that a successful club outing is not determined by the forecast but by the people who attend.

The My Car Club NSW thanks everyone who came along and helped make the day another memorable social event.
