

My Car Club Robertson Pie Shop Drive.

Date: March 25, 2026
Starting Point: Uncle Leo's Roadhouse Glenfield
Destination: Robertson Pie Shop Robertson
Distance: 103km
Weather: Beautiful Autumn Day

Approximately 30 members entered and attended this drive organised to the usual high standard by Mark Hertz on behalf of the club.

There was a great mix of cars with Mercedes represented by an eclectic mix of models, a couple of BMWs, a Citroen, a new Audi (all electric), a Mini, a GT Falcon, a Maserati and several moderns.

The cars set off from Glenfield just after 11am and headed on to the M31. Traffic was reasonable for a motorway with the directions requiring the taking of the Mittagong exit then a sharp left at Aylmerton Road. This was followed by a very pleasant drive through the B roads (or were they C roads?) at the back of Mittagong through the lush countryside to the Illawarra Highway and on to Robertson.

The group stopped, saw what was on offer and sampled the delights accordingly. A great selection and variety of pies, pastries and coffee, tea and drinks were available and the members enjoyed their selections and the company of other members.

The pie shop was founded in 1960 and is a regular hub for car and bike clubs, the local community and travellers alike. It has recently had a modern makeover with new owners (the Keats) taking over in July 2025 from the previous owners of 46 years.

This was a great drive and it was good to get off the freeway for a while and enjoy driving my e30 Baur as intended!

Thanks to Mark for his organisation and the other members for their company.

We all made our way home after lunch, some via Macquarie Pass, some back the way we came with others on a route of their own choosing.

See you next time!
