

RECOLLECTIONS OF VICKEN AND MARK.

SENIORS WEEK DISPLAY.

PRINCE HENRY NURSING AND MEDICAL HOSPITAL.

Sunday, 5th March, 2026

Under clear blue skies and perfect autumn sunshine, Sunday provided an ideal backdrop for the My Car Club NSW's annual display held at the historic Prince Henry Nursing and Medical Museum Hospital. This year's theme, "Back to Prince Henry," paid tribute not only to the venue's rich heritage but also to the timeless appeal of classic motoring.

The day began early for the club's dedicated events director Mark whose ambitious task of transporting his collection of pre-war vehicles to the site before the 9 a.m. start proved to be a challenge in itself. Nevertheless his efforts paid off, setting the tone for a smooth and successful event.

By mid-morning, a total of 20 vehicles from club members were proudly lined up, each with its own story and character. Among the highlights was Mark's striking 1928 Model A Speedster, affectionately named "Henry," which drew admiration for its vintage charm. Equally eye-catching was the elegant 1930 Chrysler 66, alongside a nostalgic 1960s EH Ute that resonated with lovers of Australian motoring history.

European flair was represented by Vicken's 1966 Alfa Romeo Spider while fans of classic luxury admired an immaculate, original-condition 1978 LTD. The lineup was further enhanced by a beautifully restored 1978 XC Coupe, showcasing the dedication and craftsmanship of its owner.

Public interest throughout the day was exceptional, with visitors engaging enthusiastically with owners and taking a keen interest in the vehicles on display. The combination of fine weather, a picturesque location, and a diverse range of classic cars made for a memorable experience for all involved.

As the event concluded at 3 p.m., it was clear that the day had been a resounding success, celebrating not just cars but community, history and a shared passion for motoring.
